

OSLab-11

Ali Boakeian

June 2021

1 Introduction

I'm Ali Bokaeian, 21 years old and i live in Mashhad. I am a bachelor's degree student in computer engineering at Sadjad University and also I'm Python Developer. My favorite technologies are ALPR and Autonomous Vehicles, and I would love to work in the field of Autonomous Vehicles. I'm currently learning computer vision. I can also speak English and German.

2 Table

number 1	number 2	result
2	2	4
3	8	24

Table 1: Multiplication

3 Math

$$\int x^n + y^n - 1$$

4 Coding

```
def fibo(x):  
    if x == 0:  
        return 0  
    elif x == 1:  
        return 1  
    else:
```

```
        return(fibo(n-1) + fibo(n-2))

number = int(input("Please Enter a Number: "))
print(fibo(number))
```
